FRENCH CRISIS.

A CARNIVAL OF CRIME.

Highway Robberies Common at Chicago—The Police Powerless.

Brisson Asked to Form a New Cabinet.

Panama Canal Officials Stand Mute at the Investigation.

The Public Prosecutor Also Blocks the Inquiry.

The Amee of Afghanistan Called to Account by England—British Politicians Given a Surprise—Quiet at Samia.

By Telegraph to The Times.

PANAMA, Nov. 29.—[By Cable and Associated Press.] President Carnot held a conference with Prime Minister Loubet on the Cabinet crisis this morning. He has summoned Flouquet, President of the Chamber of Deputies, and Senator Le Royer to consult with them on the situation. It was reported that if Brisson declines to form a ministry Carnot will ask Tocard or Bourgeois to undertake the task. It is certain that De Freycinet, Ribot and some other members of the Loubet ministry will be members of the new Cabinet.

Later in the day Carnot summoned Brisson and asked him to form a ministry retaining in the Cabinet Ribot and De Freycinet. Brisson promised to communicate his decision tomorrow after conferring with his friends.

THE CANAL INQUIRY.

De Lesseps and Others Decline to Give Any Testimony.

PANAMA, Nov. 29.—[By Cable and Associated Press.] Charles Lesseps, vice-chairman of the board of directors of the Panama Canal Company, and other members of the board today refused to give testimony before the investigating committee.

The announcement was made this evening that the public prosecutor refused to submit to the investigating committee documents connected with the prosecution of the Panama Canal directors. The reason for the refusal is that the would not carry out the usual judicial procedure to turn the papers over to the committee, and more especially so because the idea is opposed by counsel for the defendants. The news of this action on the part of the public prosecutor served to increase the excitement in the lobbies of the Chamber of Deputies, and much speculation was indulged in as to what course the investigating committee will now take.

THE AMEE IN TROUBLE.

England Calls Him to Account for Aiding an Assassin.

CALCUTTA, Nov. 29.—[By Cable and Associated Press.] The news of the assassination of Afzal Khan, Governor of Chitral, and his younger brother by Sher Afzal Khan, another brother, and the seizure of the throne by the assassin, has caused much uneasiness. The report that Sher Afzal Khan received assistance from the Amee of Afghanistan has been confirmed, and it is said that he directly connived at the usurpation of the throne. The Amee has no right whatever to interfere. Chitral is under British protection and the murdered Governor had been officially recognized as the rightful ruler of the country. Sher Afzal Khan has professed himself the servant of the Amee of Afghanistan, and the English government demands that the Amee explain the situation.

A POLITICAL SENSATION.

A Home-rule Policy Mapped Out for Gladstone in America.

LONDON, Nov. 29.—[By Cable and Associated Press.] A mild sensation was caused in English political circles today by a cablegram from New York summarizing an article published in American newspapers purporting to give the details of Gladstone's latest home-rule plan for Ireland. It is impossible to say now how much truth, if any, there is in the story. In the best informed circles, however, the cabled report was received with absolute incredibility. The establishment of four provincial councils with a central administrative body in Dublin is believed to be improbable. One prominent Irish member said tonight that his party will accept no provincial legislation, and Gladstone will never propose it.

England's Latest Bugaboo.

LONDON, Nov. 29.—The large business done in Great Britain in American canned goods, which has been rapidly growing in the last few years, is likely to be seriously checked by an alarming number of deaths from poisoning, alleged to have resulted from eating canned goods.

A Royal Betrothal.

LONDON, Nov. 29.—Truth says it is generally understood that the betrothal of Prince George of Wales to Princess Mary of Teck will be officially announced after the anniversary of the death of the Duke of Clarence.

All Quiet in Samoa.

AUCKLAND, Nov. 29.—Latest advices from Samoa are to the effect that everything is quiet. The Tutuila rising having subsided.

HELD UP.

Robbers Capture a Northern Train, but Get Little Booty.

PHILADELPHIA, Nov. 29.—[By the Associated Press.] A Great Northern west-bound passenger train was held up by three robbers near Malta, a small station east of here, this morning between 8 and 4 o'clock. The express messenger was forced to open the local safe, from which it is claimed only \$25 was secured. He did not know the combination of the big safe through, and the robbers evidently did not have tools to break it. They left without molesting the passengers.

Social Separation at St. Joseph.

ST. JOSEPH (Mo.), Nov. 29.—The grand jury finished its labors today and created a genuine sensation society by indicting some leading men and women in the city on the charge of renting houses to keepers of bawdy houses. Among those indicted were Steuben Woodson, of the Sexton National Bank, brother of ex-Gov. Silas Woodson, and Mrs. Rachael Fleming, a well-known society leader. Warrants were issued and the defendants gave bonds.

A CARNIVAL OF CRIME.

Highway Robberies Common at Chicago—The Police Powerless.

Chicago, Nov. 29.—[By the Associated Press.] Today's list of robberies by highwaymen surpasses in number that of yesterday. Henry Litzburg, peddler, was held up in the northwestern portion of the city this morning, but nothing was secured, as he had no money. The police thoroughly searched the district, but without effect. They then received information leading them to believe the lone highwayman was in a paddock a few miles northwest. Twenty men with rifles surrounded the place, and when a horseman was seen riding rapidly, a bullet was sent after him, bringing down his horse, and the man was captured. His horse proved his identity as a hawker returning from a blacksmith's, and was released.

Mrs. Nettie Warner of Boone, Iowa, reported to the police that she had been chloroformed in a cab and robbed of a diamond ring worth \$600. She was unable to give any clew. Rumors of small robberies come from various parts of the city, and the police, though working desperately, seem unable to check the carnival of crime.

THE HERESY CASES.

Rev. Dr. Briggs Too Much for His Adversaries.

Two of the Charges Against the Professor Stricken Out After a Hot Debate—The Smith Trial at Cincinnati.

By Telegraph to The Times.

NEW YORK, Nov. 29.—[By the Associated Press.] The presbytery this afternoon resummed the trial of Dr. Briggs. The floor was at once accorded the prosecuting committee to state its position on Prof. Briggs' objections to the charges, and his demand that Nos. 4 and 7 be stricken out.

Col. McCook read the opinion of the committee on the motion and argued that the two charges could not be dropped. In relation to charge No. 7, Col. McCook said that Briggs's answer was irrelevant, because, although he had affirmed before the professors of Union Seminary that he believed that one who died unpenitent was forever lost, he had since promulgated his theory of progressive sanctification. In his inaugural address, and it was on this address that the charge was founded. The fourth charge could not be dropped because Dr. Briggs's denial of the fulfillment of the details of the prophecy was a denial of the truthfulness of the Bible, and an attack of the omnipotence of God.

After further discussion Dr. Alexander's motion to strike out charge No. 3 was taken up. Prof. Brown of the Union Seminary, and the foremost of Briggs's supporters, said that the committee acted unfairly in quoting part of Briggs's statements and taking them out of their proper connection. "Any minister," he said fervently, "could be proved heretical by this course."

Dr. Hastings, the venerable president of the faculty, with which the defendant is connected, did not mince words in claiming that the charge contained in the fourth was radical.

The change made in the charges is radical.

The seventh charge suffered the same fate by about the same vote. Col. McCook asked that an exception to the court's action be entered on the record in behalf of the prosecuting committee.

Adjourned until tomorrow.

THE SMITH CASE.

Another Charge Held Sufficient After a Long Wrangle.

CINCINNATI, Nov. 29.—[By the Associated Press.] The entire forenoon session of the presbytery was spent in discussing the sufficiency in form and legal effect of the third charge and specifications against Prof. Smith. No vote was reached up to recess.

At the afternoon session a vote was taken on the question of sustaining the sufficiency in form and legal effect of the third charge. It was sustained 40 to 22—but the vote showed that two members of the court, Rev. Hugh Gilchrist and Rev. E. Walker, had come over to the side of the accused. Walker, in discussing the matter, said that if all ministers holding Smith's presbytery to be subjected to trials, the presbytery will have enough heretics to keep it busy for three years.

The committee then asked to amend the first specification by inserting additional citations from Smith's pamphlet. Smith said that this deprived him of his right to a day's notice of his trial and of his defense, and, after hot debate, the amendment was disallowed and the specifications approved. The case is now ready for formal trial.

FLORIDA'S ORANGE CROP.

Growers Anticipate Better Prices This Year Than They Got Last Season.

JACKSONVILLE (Fla.), Nov. 29.—[By the Associated Press.] With oranges beginning to move, there is great anxiety regarding prices. Last year the growers averaged only a few cents over \$1 per box. The supply exceeded 3,750,000 boxes. This year there are only about 3,000,000 boxes of oranges in sight, and experienced dealers express the opinion that prices will not be high.

"I think the growers ought to average \$1.50 per box on the tree for marketable fruit," said a prominent member of the Florida Fruit Exchange this evening.

THE DEMOCRACY.

Robbers Capture a Northern Train, but Get Little Booty.

PHILADELPHIA, Nov. 29.—[By the Associated Press.] The Young Men's Democratic Association of Philadelphia tonight tendered William F. Harrity a public reception at the Academy of Music. Long before the hour announced for beginning the ceremonies the large galleries of the Academy were packed. Mr. Harrity, surrounded by a committee of prominent Democrats, greeted those who pressed forward to do him honor. From this up to 11 o'clock a steady stream of people passed in double file before the eyes of the evening. Much enthusiasm was manifested throughout the evening.

Gen. Weaver's Daughter Married.

DES MOINES (Iowa), Nov. 29.—Ruth Weaver, daughter of Gen. Weaver, late People's party candidate for President, was married here tonight to Harry Denny of this city.

Wife-murder and Suicide.

LOUISVILLE (Ky.), Nov. 29.—Near Empress, Carl Burgham killed his wife by cutting her throat. He then blew his own brains out.

mined upon. The tender of the Treasury portfolio to Mr. Fairchild is understood to have been made within a day or two after the election.

Railway Telegraphers Make Demands.

ST. JOSEPH (Mo.), Nov. 29.—The executive board of the railway telegraphers of the Chicago, Rock Island and Pacific concluded a two weeks' session and left this morning for Chicago with a new schedule which the railway company will be asked to accept. The schedule fixes the minimum salary at \$15 per month, and provides for overtime pay.

NEW YORK, Nov. 29.—The Jersey Central Railroad Company has decided a number of demands made by their telephone operators, but has made some counter propositions which the operators are considering.

Reporters Besiege Gould in Van.

NEW YORK, Nov. 29.—Persevering inquiry at the houses of Jay Gould and his son George, and at that of Gould's physician, failed to bring out any definite information as to Gould's condition. The doctor will go to El Paso, Tex., for his health.

It was reported that the family was very anxious about his condition last Wednesday, when he had a very severe bilious attack, and that he will go to El Paso as soon as he is able to stand, and his sole heiress.

It was stated at Jay Gould's residence tonight that the current reports of his illness are false.

New Standard for Measuring Type.

SYRACUSE (N. Y.), Nov. 29.—The Conference Committee of the American Newspaper Publishers' Association, United Typothete, International Typographical Union and American Type Founders' Company met yesterday for the purpose of adopting a new standard for measuring the amount of type set by compositors. A resolution was passed to the effect that lower case alphabets of all faces of body type shall not measure less than fifteen lower case letters of its own face; also that the thirteen letters of the alphabet most frequently used, c, e, i, s, m, h, o, t, a, b, shall equal the length of the remaining thirteen.

Uncle Sam Wins a Whisky Suit.

NASHVILLE (Tenn.), Nov. 29.—Some time last year a bonded warehouse belonging to the Government was burned near Cartner's station, five miles south of Nashville. Stevens & Co., distillers, had 30,000 gallons of whisky stored in the warehouse on which the tax was not paid. The Government brought suit against them upon their bond for the unpaid tax. They set up the defense that the whisky was in the control of the Government when destroyed. The Government claimed that the whisky was stored at the owner's risk. The jury returned a verdict for the Government for \$36,632 tax and interest.

A Denver Attorney Missing.

DENVER (Colo.), Nov. 29.—George H. Kohn, a prominent young attorney of this city, left last week to visit relatives in St. Louis. Since his departure many sensational rumors have been circulated as to his estate being heavily encumbered, some reports placing the amount in the neighborhood of \$100,000. The only legal action taken thus far is a suit for the recovery of \$1500 on a promissory note. The Sheriff levied on Kohn's office effects, and his safe will be opened tomorrow.

Threatened Indian Outbreak.

NEW YORK, Nov. 29.—Prominent officers of the army on duty in the East are receiving alarming private advices from Indian Territory, which point to an early uprising of the Cheyenne and Arapaho Indian tribes. The report says that the tribes are suffering greatly from want of sufficient food. The immediate cause of the threatened uprising is the recent order of the Indian Bureau, directing a reduction in rations.

Two Bank Robbers Caught.

ALLEGTON (N. J.), Nov. 29.—Two daring robbers entered the Farmers' National Bank here this afternoon, and, covering the cashier and teller with revolvers, relieved them of nearly \$9000. After an exciting chase the robbers were captured and the money recovered. The older of the robbers said his name was Frederick S. Smith and his age 25. His companion gave the name of J. B. Morris, aged 20.

A Money Package Stolen.

GALVESTON (Tex.), Nov. 29.—The Island City Savings Bank of this city today received a package from New York supposed to contain \$10,000. When opened, it was found to contain brown paper cut in slips about the size of bank notes. Nothing is known as to where the robbery took place or by whom it was committed.

Another San Diego Bank Case Decided by Judge Ross—The Anderson-Lowell Matter Ventilated Before Justice Stanton.

In the Township Court yesterday Capt. A. B. Anderson appeared before Justice Stanton to answer to the charge of having threatened to kill H. G. A. Lowell, a young Englishman, on Monday evening, November 21 last. Deputy District Attorney Diehl appeared to prosecute the case, the defendant being represented by Rusk Harris, Esq. The testimony was very brief, and those of the spectators who assembled in the hope of being treated to a rare morsel of scandal went away disappointed.

The trial of the Anderson-Lowell case was adjourned until November 28, when the court will sit at 10 a.m. to hear the defense.

The Anderson-Lowell Trouble.

In the Township Court yesterday Capt. A. B. Anderson appeared before Justice Stanton to answer to the charge of having threatened to kill H. G. A. Lowell, a young Englishman, on Monday evening, November 21 last. Deputy District Attorney Diehl appeared to prosecute the case, the defendant being represented by Rusk Harris, Esq. AMUSEMENTS TONIGHT.

AT THE OPERAHOUSE — For Revenue Only.

Some of those baseball "maggots" seem to be meaner in pusley.

They will all want to pair with Mrs. Lease when she goes to the Senate.

No wonder it rains. Congress is about getting together. The next day it will snow.

The pets of Miss Janauschek are a couple of guinea pigs. Well, she looks it.

The Thanksgiving turkey has something to be thankful for; he doesn't play football.

Just think of Edward Murphy, Jr., rattling and sloshing around in the chair once filled by Roscoe Conkling.

You'll see that the "robber tariff" will have to wait until the Democracy has taken a swipe at the pension roll.

They talk of dividing Texas. We can stand one Texas, but if there is going to be two of them let us get away first.

It looks just as though we could get rid of the machine in politics to save us. Now they want us to vote with one.

The World's Fair may be great things, but the railway fare is likely to have something to say about this a little later.

The Chicago Inter Ocean is responsible for the statement that one Democrat and a jug are plenty to get up a jollification with.

Ike Walton was here he could strike Grover for most anything he wanted and get it. Too bad he's dead at such an hour as this.

If Mrs. Lease goes to Washington she will find that Dr. Mary Walker has been there and got the people all "blase" and everything on curios.

HENRY VILLARD is going to tangle Grover up if he don't watch out. It is a sinister alliance that the President-elect cannot afford to make.

No doubt Grover is standing out there in the cold on one foot, wondering how he is going to sneak into the house without anyone's seeing him.

JUDGING by Mr. Cleveland's speeches, he has the faculty of talking large mouth-filling words and saying nothing down finer than anybody in this blooming United States.

The statement is made that Gladstone writes poetry, and that he once read a hunk of it to Mrs. Langtry. If this is a fact it may in a measure explain why he has turned out as she has.

FONZON physicians are now experimenting with frog lymph as a preventive of hydrophobia, and perhaps it is just the thing—it ought to be good for something, although we never heard that a frog had one.

The Chicago Tribune has received the impression that this talk about dividing Kansas may come from the fact that Mrs. Lease is about to don the divided skirt. Who knows all the details about this? Let him stand forward!

Nowhere hears Mr. Lease lifting up his voice in lamentation for fear he is going to be the husband of a United States Senator. He is probably so calloused by this time, however, that he wouldn't notice a little thing like that.

AMBROSE BIRCH has opened his gatting gun of sarcasm and satire on George Washington, but he has not yet demonstrated that he committed suicide. This will probably come along, however, with the next installment of slugs and aqua fortis.

The New York Press makes room for the information that "Jonathan Ellis of Farmington, Me., who is 99 years of age, went to the polls and voted the Republican ticket." It looks as if, in many of the States, nobody but the real old people turned out to vote the Republican ticket.

The Chicago Herald is going to print a lot of its free-trade editorials in pamphlet form, but it has won everything in sight, and as Grover and the rest of them are going to immediately, if not quicker, rip the last vestige of protection right up the back, why does the Herald treat us this way?

Mr. BIERCE of the San Francisco Examiner, who discovered that McWhirler of Fresno committed suicide, should turn himself loose on the individual who was numerous fished out of various sloughs up at Stockton, the other day. This party planted a leg in one place, an arm in another, and so effectively secreted his head that up to this writing the local sleuths have not been able to drag it from its lair. Between Mr. Bierce and Mr. Morrow, of that newspaper which goes circulating around the country under the sub-head of The Monarch of the Glen, the public should be reliably informed, at an early date, just how he did it.

many laboring men, who have hitherto benefited by protection and who expect to reap still further advantages from it; (if the Democrats will only let it alone,) that induced them to turn their backs upon the Republican party and help throw the Government into the hands of the Democrats. If they do not already appreciate the extent of their blunder they will do so before a great while. It would be only a proper punishment for them if Cleveland's administration should give the country free trade pure and simple, as it promised to do. That would prove an eye-opener. Although we believe that the forthcoming Democratic Government will not fulfill its promise to the letter, and there will be a strong effort to maintain as many protective features as possible, it is, nevertheless, true that Congress will keep up a constant tinkering with the tariff. Our foreign policy, as hitherto maintained, will be in the hands of its enemies. The distrust thus engendered must have an unsettling and a depressing effect upon the industries of the country.

Already we have heard of several large manufacturing enterprises, previously projected, which are to be given up, at least for the present. Men do not propose to invest their capital in these large enterprises until they know to a reasonable certainty how the cat is going to jump, and they are evidently level-headed about it. As sure as fate we have turned the crest of the hill in our industrial progress and prosperity, and, for several years, at least, the road will be on a down grade.

Let those Republicans and those workingmen who have done all they could to promote this result lay the flatteringunction to their souls that they have kicked over their own mess of porridge. If they go without a supper in consequence it is their own lookout.

As for the differences between labor and capital, we shall probably get at some systematic way of adjusting them after labor shall have got down off its high horse of trades-unionism and becomes amenable to reason. A free-trade policy or a semi-free-trade policy, as a result of a long spell of tariff tinkering, will prostrate the industries of the country sufficiently to throw hundreds of thousands of men out of employment, bring hard times and lower rates of wages all along the line. Then the men like our Pasadena correspondent will kick themselves all around a forty-acre lot and back into the Republican party.

THE CITY ENGINEER'S OFFICE.

At the city election, to be held on the 5th proximo, the electors will be called upon to select the officials who will have charge of affairs during a very important period of our city's history, probably more important to its future than any two years of the past.

The people have said at the polls that they are willing to pay for an outfall sewer and a system of waterworks. So far so good. Both are needed and needed at once. Both will have a decided effect upon the city's growth and development. But, unfortunately, it is not as easy to properly construct these necessary improvements as it is to vote the bonds to pay for them. We should have officials who are thoroughly in sympathy with the people on these matters, who will surmount all the obstacles which will surely be interposed, instead of themselves becoming obstacles or allowing others to delay or prevent the work of construction.

"In addition, the city should have the services of the most competent and experienced men available. Especially is this true in the case of the City Engineer. No other official will have so responsible a position as regards the improvements above referred to. The Council will receive proposals and let contracts; the Mayor will have the veto power, and the City Attorney will look after the legal propositions involved; but, after all, the value of the work when done must depend upon the intelligent preparation of plans and specifications, and the faithful supervision of the work of construction. Blunders are costly, and in works such as are contemplated a faulty plan, insufficient specifications or defective construction may either ruin the whole enterprise or prove a source of perpetual expense to the city.

E. T. Wright, the Republican candidate for City Engineer, is peculiarly well qualified for the position. He has been engaged in the practice of his profession in this city for over seventeen years, and is thoroughly acquainted with our local conditions and surroundings. He has given much attention to the question of developing, conducting and distributing water, and has an established reputation as a hydraulic engineer. He is clear headed, competent, honest, and in every respect the man now needed in the position to which he aspires.

A COMFORTABLE OUTLOOK.

A fall of more than three and a half inches of rain at this time—coming without any considerable disturbance of wind, and in such a gentle manner as to penetrate the thirsty soil and accomplish the best results—is certainly a propitious opening for the season. If now, this rain is succeeded by others in a timely way, as it probably will be, and we have no violent windstorms or cold waves, we may look for one of the most prosperous seasons, agriculturally and horticulturally, that California has ever enjoyed. The early wetting of the soil will lead to the plowing and seeding to grain of a large area. The cultivation of crops of all kinds will be promoted. If the season is propitious throughout we shall have such crops to dispose of as will make the farmer feel that he owns a good share of the earth, and all lines of trade and traffic will prosper accordingly. The crop of oranges now on the trees gives great promise. The fruit is very fine, and, while the output may not be so great as in phenomenal years hitherto, it will be large. We hope also that the market will be in such condition as to render it remunerative.

Our correspondent has read THE TIMES to very little purpose if he does not know that in sustaining Republican principles of protection, we were enlisted for three years with no option to quit the employ without proper notice, and all questions of pay, hours of labor, etc., left to a Government commission. That would end strikes. Let the Republican party go the whole length of protection or go out of business. These sentiments, I believe, are more general than party leaders thought.

Our correspondent has read THE TIMES to very little purpose if he does not know that in sustaining Republican principles of protection, we were enlisted for three years with no option to quit the employ without proper notice, and all questions of pay, hours of labor, etc., left to a Government commission. That would end strikes. Let the Republican party go the whole length of protection or go out of business. These sentiments, I believe, are more general than party leaders thought.

AMBROSE BIRCH has opened his gatting gun of sarcasm and satire on George Washington, but he has not yet demonstrated that he committed suicide. This will probably come along, however, with the next installment of slugs and aqua fortis.

The New York Press makes room for the information that "Jonathan Ellis of Farmington, Me., who is 99 years of age, went to the polls and voted the Republican ticket." It looks as if, in many of the States, nobody but the real old people turned out to vote the Republican ticket.

RAILROAD AFFAIRS.

The Work of Train-wreckers at Duarte.

A Startling Explanation of the Santa Fe Derailment.

The Street-car Lines Having a Tussle with the Mud.

Southern Pacific Freight Trains Tie Up at Night — Assistant General Manager of the Union Pacific Arrives.

The details of the accident to the Santa Fe passenger train near Duarte Monday evening were correctly given in this paper yesterday morning. The additional account, which came by Associated Press, and was printed in the same column, appears to have been somewhat exaggerated. No one was hurt except the engineer, whose wound was not dangerous, and only the two forward cars of the train went off the rails. Though the train was going at full speed at the time of the accident, many of the passengers did not even suspect anything wrong, and, of course, none were injured. The cause of the wreck is not yet definitely determined, but the latest theory is a startling one. It is said that it was the work of train-wreckers. A large bowler had been placed on the track by some one, and this caused the derailment. The detective force of the road is working on a clue which may discover the wreckers. The tracks were cleared early yesterday morning and trains were running as usual.

ELECTRIC CARS AND MUD.

The Consolidated Electric Company had a lot of trouble on the various lines yesterday, though nothing serious happened. A University car ran off the track at the corner of Broadway and Tenth street, where is the bad sinkhole which has before given the company much annoyance, and was badly wrecked by crashing into an electric pole. At almost the same time that a long car was derailed at the corner of Spring and First streets another car of the same kind went off the track at the corner of Spring and Second streets, the two cars creating a great blockade, and large crowds of curious spectators, most of whom had suggestions to offer regarding the best way to set the trouble right. The cars over the Westlake Park line ran with considerable regularity, though the steep grades became very slippery with adobe mud. Numerous cars of various lines had to be sent to the shops, run out by short circuits.

THE SOUTHERN PACIFIC BRIDGE.

The workmen on the new Southern Pacific bridge at Mission street did not complete that structure yesterday, as was hoped, but confidently expect to drive the last rivet today. When the bridge has been thoroughly tested it will be at once used for regular traffic over the main line, and the temporary trestle work alongside of it will be abandoned. The passenger trains of the Southern Pacific all arrived and departed about on time yesterday, there being no trouble on the lines. During the prevalence of the rains the freight trains on the road are laid up on sidings every night, it being deemed safer to run only by daylight while there is any danger of washouts.

SCRAP HEAP.

The first of the new "limited" through trains from Chicago to Los Angeles by the Santa Fe will arrive today on time.

E. Dickinson, assistant general manager of the Union Pacific system, arrived from the East by the Southern Pacific last night.

Fred W. Thompson, the popular representative of the Rock Island route in Los Angeles, is moving into the handsome house he has just built on Twenty-first street and Estrella avenue.

The Santa Fe will run a special train to Redondo today, leaving First street depot at 8:30 p.m., for the invited guests to the McCook-Craig wedding. The train will leave Redondo, returning at 9:15 after the ceremony. The special tickets sold for this train will be good to return up to the last train tomorrow.

THE DENTISTS.

Annual Meeting of the Southern California Odontological Society.

The Southern California Odontological Society held its annual meeting yesterday in the rooms of the County Medical Association, with a large number of the leading dentists from this city and surrounding towns in attendance. The programme carried out proved of much interest to the practitioners and visiting delegates. The president's address was delivered by F. M. Palmer, and the following papers were also read: "Gutta Percha," G. A. Millard; "Bacteria in Dentistry," H. W. Moore; "Nitrate of Silver in Dentistry," T. C. McCoy; "Dental Manufactures and the McKinley Bill," E. L. Townsend.

Prof. McClellan of Throop University also favored the society with an entertaining talk upon the subjects under discussion, which the following officers were elected for the coming year: President, H. W. Moore; vice-president, F. F. Little; secretary, Peter Hendricks; corresponding secretary, A. P. Hays; treasurer, C. V. Baldwin; librarian, J. L. Pierce.

WEATHER AND CROPS.

Weekly Bulletin of the Weather Bureau for Southern California.

Following is the regular weekly weather and crop bulletin for Southern California, issued by the Government Weather Office, for the week ending November 28:

Los Angeles county — The Palms: fruit and vegetation generally derived much benefit from the rains yesterday. The first ripe oranges of the season were picked from the Wrightlands grove adjoining the townships. The orange crop will be unusually large and early this season. Pasadena: The days of cold nights preceded the first part of the week, with frost on the morning of the 25th, doing no damage. Highest temperature 85°, lowest 37°. Rainfall, .20 of an inch. Duarate: The weather during the past week was very favorable for the orange and lemon crops. Highest temperature 86°, lowest 42°; rainfall, .21 inch. Pomona: Copious rains fell, which benefited all classes of vegetation and caused farmers to rejoice.

San Bernardino county — Chino: The rains have started work on the ranches, and several hundred acres are already plowed for next season's beet crop. Rialto: Plowing for barley has commenced and sowing is in progress. A large acreage will be planted. Riverside: Orange coloring more rapidly than usual, and quite large shipments will go forward for the holiday trade. Raisins are being shipped off rapidly.

Orange county — Anaheim: A shower of rain fell on the 26th, and rain fell continuously on the 28th, which enabled farmers to commence plowing. Highest tempera-

ture, 79°; lowest, 40°. Rainfall, .70 of an inch. Santa Ana: Tomatoes are in bloom and are bearing in many localities. A great many of the orange trees are so full of fruit that the branches are breaking down; .06 of an inch rainfall. Tustin: The weather has been quite cool, with some frost. Considerable land is being plowed for grain.

San Diego county — San Diego city: Cool and cloudy weather prevailed during the week.

Ventura county — Bardsdale: Eight inches of rain has fallen. Considerable corn was out and was slightly damaged.

Chamber of Commerce.

The Chamber of Commerce has again taken up the publishing of a weekly weather crop bulletin in cooperation with the United States Weather Bureau.

Southern California is the only section

of the United States which publishes these bulletins through the winter months, these months here being a season of active growth of vegetation and the harvesting of citrus fruits. The bulletins for the week ending November 21 gives reports from various points in the six southern counties, and estimates the orange crop for 1892 at 6000 carloads, valued at \$8,500,000.

The Bureau of Information pamphlets

will be sent gratis to any address sent to the secretary of the Chamber of Commerce, if accompanied by a 4-cent stamp.

Cost and Cure.

PORTSTOWN, PA.

I was a sufferer from neuralgia for ten years; tried all kinds of remedies without relief, and had given up all hope. I tried a bottle of

ST. JACOB'S OIL,

and it effected such wonderful relief that I recommend it to all.

CHAS. LAW, JR.

1 Bottle.

Our Sole Idea

In selling our correct shape shoes for \$3.00 to insure you comfortable feet. If you breathe a sigh of relief when you take off a pair of shoes, and then when you put them on, and you made a bigger mistake when you bought it at all. We have another idea for you, a popular idea, and we are sure you are not only against discomfort, but also against any greater expenditure than you can be legitimately expected to make. What can you do then? You will spend in good cause. You will be buying what will look well, fit well and

Wear Well,

and so far from paying too much for it, your outlay will be smaller than an unsatisfactory shoe would plunge you into.

We have headquarters for Rubber Goods.

BUSINESS.

FINANCIAL AND COMMERCIAL.

OFFICE OF THE TIMES.

LOS ANGELES, NOV. 29, 1892.

A dispatch from New York reviews the market for California products as follows: "Grapes wind up at big prices. E. E. Goodsell's fine carloads made the day before yesterday \$1.00 per box. Cases, single crates, 1.70@3.65; double, sold at 4.35@5.75, with 6.80 for part of A. B. Humphrey's consignment, and 9.10 for part of R. D. Stevens' carload. Cornichons, double crates, 4.15@4.80; half crates, 2.00@2.65; Muscat, 1.60@2.90; Emperor, 1.50@2.80; double, 4.10@4.65. Scientific cold storage is to desirably extend our use of California grapes. Experiments this year prove the Cornichon to be an elegant keeper, and we shall eventually have what has long been needed, Pacific grapes for New Year tables. The steamship ethelwood from Florida to England took 95,000 boxes of oranges.

The orange market for California is in only fair shape. There is a reasonable expression of activity, but sellers have to shade prices to keep it alive. We are glad that was stepped up a little. Vines are fair and now are having a considerable drumming for business. This, of course, operates against firm prices. Perfect lines and guaranteed samples move well, but a perplexing feature just now is the undue number of grades given by buyers and sellers, only slightly off in quality. Three-crown loose bags bring 5.25@5.75; two-crown, 4c; three-crown boxes, prime, 1.50@1.65, the lower price for the ground brand, and the other for prime faced. Two of used muscates, 1.25@1.35. Lavers range 1.00@1.00.

"Apricots—The market is decidedly strong. Buyers have reappeared, paying 15@13c per box for sacks and 16@18c per box. Prunes are slow of sale, the trade running on the basis of a more holiday character. Sacks are quoted, spot, four sizes, 10@11c; boxes, 11@12c. Unpeeled peaches hold their own. No outside lots have yet appeared on the market. Fair to best marks are quoted at 13@16c spot.

Money, Stocks and Bonds.

NEW YORK, Nov. 29.—The stock market was dull the greater part of the day. It opened firm. Fluctuations were insignificant until the last hour, when the bears made a vigorous attack and a successful raid.

The close was weak, the market made a decided dip.

NEW YORK, Nov. 29.—MONEY—On call, firmer; closing off at 5 per cent.

STEELING EXCHANGE—Strong; bankers' 60-day bills, 4.85%; demand, 4.88@4.88%; prime mercantile paper, 3@4 per cent.

NEW YORK STOCKS AND BONDS.

NEW YORK, Nov. 29.—The stock market was dull the greater part of the day. It opened firm. Fluctuations were insignificant until the last hour, when the bears made a vigorous attack and a successful raid.
